

# Single Situation Credit Insurance Cover

**Benefit from a safety net for a key customer**

**Our Single Contract Cover provides a flexible way to protect specific contracts from political or commercial risks.**

Our Single Buyer Cover helps protect the relationships that are most important to your business. Both of these single situation covers can be combined with complementary Atradius products to create a policy most suited to your needs. As with all Credit Specialties policies, the key features and individual wording will all be unique to your policy.

## **Single Buyer Cover**

Your most valuable customers can also be the ones that expose you to the most risk. Our Single Buyer cover is designed to help you cover the risks posed by a specific customer. This could include political risks that may be present in your customer's country and cover for pre-shipment production costs. This policy can be useful when there is no need to buy cover for all of your receivables. You may also wish to top-up your multi-buyer credit insurance with additional cover for the customers that represent the highest risk.
